Summary

Final-year Software Engineering undergraduate with hands-on experience designing and developing real clients' projects, full-stack web applications, backend systems, AI-powered solutions, and security-focused research projects. Experienced in React, Node.js, Python, Flask, MongoDB, SQL, PostgreSQL and REST APIs through numerous personal, real client and academic projects. Passionate about building scalable software and continuously learning modern software engineering practices.

Education

BComp (Hons.) in Software Engineering, *University of Sri Jayewardenepura* 2023 – Present
Expected Graduation: 2027
Current GPA: 3.3

Skills

Programming

- Java
- JavaScript
- Python
- C#/C++
- SQL
- Dart

Backend

- Node.js
- Express
- Flask
- .Net

Frontend

- React
- Streamlit
- HTML5
- CSS3

Database

- MongoDB
- MySQL
- SQLite
- PostgreSQL

Projects

Enterprise Sales & Field Force Management System 🔗, 01/2026 – 04/2026
Custom Desktop Application for Bio Care Consumers, Panadura

Developed an enterprise desktop application to streamline field sales, inventory distribution, customer collections, and business reporting. Implemented offline-first architecture with KPI dashboards, authentication, route management, and automated database backup.

Tech Stack: Electron • React.js • Node.js • SQLite3 • JavaScript • Tailwind CSS • Recharts

Enterprise Stock Control & Inventory Management System 🔗, 08/2025 – 12/2025
Custom Enterprise Desktop Application for JFI CONSOLIDATED (PVT) LTD

Developed a custom enterprise desktop inventory management system to digitize warehouse operations, purchasing, supplier management, and stock tracking. Implemented analytics dashboards, reporting, authentication, and automated database backup in an offline-first architecture.

Tech Stack: Electron • React.js • Node.js • SQLite3 • JavaScript • Tailwind CSS • Recharts

Student Success Platform  <i>Cloud-Native Microservices SaaS Academic Management System</i> Developed a cloud-native microservices-based SaaS platform for academic management, GPA tracking, and performance analytics with secure REST APIs and Dockerized deployment. <i>Tech Stack: React.js • TypeScript • Node.js • Express.js • PostgreSQL • Prisma ORM • JWT • Docker • Nginx • REST APIs • Microservices</i>	05/2026 – 07/2026
AI Workforce Intelligence Platform  <i>Machine Learning & Explainable AI Workforce Analytics System</i> Developed an AI-powered workforce analytics platform that predicts employee layoff risk using Machine Learning, Deep Learning, and Explainable AI. <i>Tech Stack: Python • Flask • Streamlit • CatBoost • TensorFlow • Scikit-learn • SHAP • LIME • SQLite</i>	03/2026 – 05/2026
LectureMind AI  <i>Local RAG-Powered AI Study Assistant</i> Developed a privacy-first RAG-powered AI study assistant that generates notes, flashcards, quizzes, and answers questions from lecture materials using local LLMs. <i>Tech Stack: Python • Streamlit • FAISS • Hugging Face Transformers • FLAN-T5 • Sentence Transformers • SQLite • PyTorch</i>	04/2026 – 06/2026
Bio Care Sales Mobile App  <i>Offline-First Flutter Field Sales Management System for Bio Care Consumers, Panadura</i> Developed an offline-first Flutter mobile application for Bio Care Consumers to manage field sales, customer collections, inventory, and business reporting. <i>Tech Stack: Flutter • Dart • SQLite • Provider • REST APIs • Material Design</i>	12/2025 – 04/2026
ThreatOps  <i>AI-Powered Insider Threat Detection Platform</i> Developed an AI-powered insider threat detection platform for real-time user behavior analytics, anomaly detection, and security monitoring. <i>Tech Stack: React.js • FastAPI • Python • PostgreSQL • Scikit-learn • Docker • WebSockets</i>	05/2026 – 06/2026

Publications

A Systematic Review of Coordinated Bot Detection Techniques in Real-Time Web and Mobile Applications	20/05/2026
<i>J'PURA Computing Symposium (JCoS) 2026</i> Published & Presented	

Certificates

• Fundamentals of Machine Learning & Artificial Intelligence - AWS Training	• RAG, AI Apps, and AI Agents for Cybersecurity and Networking - LinkedIn Learning
• AI/ML Engineer Stage 2 - SLIIT	• Introduction to Cybersecurity - Cisco Networking Academy
• Full-Stack Deep Learning with Python - LinkedIn Learning	• Python Programming - University of Moratuwa

Interests

• Software Development	• Artificial Intelligence & Machine Learning	• Cybersecurity
• Data Analysis
